Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Cell phone service is already exhorbitant. Service providers are already charging for both calling and receiving calls (making money on both ends of the call!) and claim that it is the FCC that necessitates these charges. I personally, am a private business ower (Realtor) and am very much in need of the service. I feel, however, that we are all being taken advantage of. Please keep additional charges from being assigned to cell customers. It is already TOO MUCH.

Thank you.

Sincerely,

Meagan M. Comin-Tambini

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
